Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

AMERICAN

JOURNAL OF BOTANY

OFFICIAL PUBLICATION OF THE

BOTANICAL SOCIETY OF AMERICA

EDITORIAL COMMITTEE

F. C. NEWCOMBE, Editor-in-Chief,
University of Michigan

C. STUART GAGER, Business Manager
Brooklyn Botanic Garden

First reprinting, 1960, Johnson Reprint Corporation

TABLE OF CONTENTS

No. 1, January, 1914

(Issued 21 February, 1914)

PAGE

The development of *Agaricus arvensis* and *A. comtulus* (with plates I and II) ..... Geo. F. Atkinson 3

Studies of teratological phenomena in their relation to evolution and the problems of heredity. I. A study of certain floral abnormalities in Nicotiana and their bearing on theories of dominance (with four text figures) ..... Orland E. White 23

Nuclear behavior in the promycelia of *Caeoma nitens* Burrill and *Puccinia Peckiana* Howe (with plate III), Louis Otto Kunkel 37

An axial abscission of *Impatiens Sultani* as the result of traumatic stimuli ..... Ross Aiken Gortner and J. Arthur Harris 48

No. 2, February, 1914

(Issued 3 April, 1914)

On the mycorhizas of forest trees (with one text figure and plates IV–VII) ..... W. B. McDougall 51

Notes on the calculation of the osmotic pressure of expressed vegetable saps from the depression of the freezing point, with a table for the values of P for $\Delta = 0.001°$ to $\Delta = 2.999°$, J. Arthur Harris and Ross Aiken Gortner 75

The pyrenoid of Anthoceros (with plate VIII) .. F. McAllister 79

No. 3, March, 1914

(Issued 6 May, 1914)

Problems and progress in plant pathology ..... L. R. Jones 97

Some observations on the anatomy and other features of the "Black Knot" (with plates IX and X) ... Alban Stewart 112

Cleavage in *Didymium Melanospermum* (Pers.) MacBr. (with plates XI and XII) ..... R. A. Harper 127

No. 4, April, 1914

(Issued 23 May, 1914)

Contribution to the life history and physiology of Cylindrosporium on stone fruits (with plates XIII–XVI), Bascombe Britt Higgins 145
The physiological water requirement and the growth of plants in glycocoll solutions..Alfred Dachnowski and R. Gormley 174
The auxo-thermal integration of climatic complexes (with plates XVII and XVIII).....D. T. MacDougal 186
The role of winter temperatures in determining the distribution of plants (with one text figure).....Forrest Shreve 194

No. 5, May, 1914

(Issued 20 May, 1914)

The influence of temperature on chemical reaction in general, Frederick Barry 203
An account of the cruciate-flowered Oenotheras of the subgenus Onagra (with two text figures and plates XIX–XXI), Harley Harris Bartlett 226
Plus and minus strains in the genus Glomerella (with one text figure and plates XXII and XXIII).....C. W. Edgerton 244

No. 6, June, 1914

(Issued 3 June, 1914)

The harmful action of distilled water (with one text figure), Rodney H. True 255
Some observations on the formation of the capillitium and the development of *Physarella mirabilis* Peck and *Stemonitis fusca* Roth (with plate XXIV).....Guy R. Bisby 274
New species of green algae (with plates XXV–XXIX), Edgar Nelson Transeau 289

No. 7, July, 1914

(Issued 8 August, 1914)

Investigations on the phylogeny of the Angiosperms. I. The anatomy of the node as an aid in the classification of Angiosperms (with plates XXX–XXXV)...Edmund W. Sinnott 303
Studies of the development of the Piperaceae. II. The structure and seed-development of *Peperomia hispidula* (with plates XXXVI–XXXVIII).....Duncan S. Johnson 323
A Gloeosporium disease of the spice bush....J. J. Taubenhaus 340
The origin and development of the lamellae in *Coprinus micaceus* (with plates XXXIX and XL).....Michael Levine 343

No. 8, October, 1914

(Issued 31 October, 1914)

Studies of the development of the Piperaceae. II. The structure and seed-development of *Peperomia hispidula* (continued from page 339) (with nine text figures and plates XLI–XLIII).....Duncan S. Johnson 357
On the correlation between somatic characters and fertility. II. Illustrations from *Phaseolus vulgaris* (with four text diagrams).....J. Arthur Harris 398
The effects of acid and alkaline solutions upon the water relation and the metabolism of plants (with four text figures), Alfred Dachnowski 412

No. 9, November, 1914

(Issued 4 December, 1914)

Investigations on the phylogeny of the Angiosperms. III. Nodal anatomy and the morphology of stipules (with plate XLIV), Edmund W. Sinnott and Irving W. Bailey 441
Observations on the development and germination of the seed in certain Polygonaceae (with plates XLV–XLVIII), Edward F. Woodcock 454
Some ecological adaptations of certain fern prothallia—*Camptosorus rhizophyllus* Link., *Asplenium platyneuron* Oakes (with nineteen text figures and plates XLIX and L). F. L. Pickett 477

No. 10, December, 1914

(Issued 29 December, 1914)

The expulsion of ascospores from the perithecia of the chestnut blight fungus, *Endothia parasitica* (Murr.) And. (with two text figures).....F. D. Heald and R. C. Walton 499
Gliding growth and the bars of Sanio (with six text figures), J. G. Grossenbacher 522
Notes on the anatomy of the Punctatus gall (with plates LI and LII).....Alban Stewart 531
Index to Volume I..... 547
